ALLOCATED BRANCHES

THE GENDEX affords an overview of the hundred plus lineages I have investigated over the last 25 years. The chart is broken down into *two* overall parts-*The U.S Branches(00000 to 74999)* and *The Foreign Branches(75000 to 99999)*. The latter branch is further sub-divided into the following countries: *Scotland, England, Ireland, Canada,* and *Miscellaneous foreign*. The line items beneath the two major branches, displayed below, are broken down as follows:

EXAMPLE OF A LINE ITEM:

10000-10999 William and Margaret(Smith) Jameson of Billerica, MA

Each line item listing includes the numeric range in which the family ancestry is contained, the earliest male or female ancestor known, the ancestor's spouse, and the first known location. The colors represent the status of the family lineage.

blue grey = means the information has not been entered into my computer, in folder file only.

purple = means no family has been assigned these numbers yet.

black = means that the material is located in my computer and now a part of this web page as a link.

Each of the family genealogies below are continually updated as I process new information discovered in my research. As you click upon any of the branches below a new page pops up with its own menu which may contained one of three items: **Photos** **Charts(trees)** or **Record**.

PLEASE READ THE FOLLOWING INFORMATION FIRST

THE FOLLOWING APPLIES TO THE U.S. & FOREIGN BRANCH LISTINGS BELOW THIS SHADED BOX.

- (1) Not all references have been added-time limitations on my part.
- (2) Not all data has been added in the original format from my computer files-original documents/materials/photos/maps require considerable space. Time limitations on my part.
- (3) No graphics have been added-space limitations. Maps for the genealogies can usually be found on the Maps Directory under the Search Indexes.
- (4) See Abbreviations page for meanings of abbreviations and symbols found in the genealogy text.
- (5) You will find that all the linked footnotes work. When you've finished reading the note, click on that footnote number to return to your place in the text.
- (6) The DATES displayed on the same line as each family index tells you when that branch was last updated with new material.
- (7) All material here is subject to opinion, review, or research-nothing is ever etched in stone when it comes to genealogy.

U. S. BRANCHES-all branches below are dated 1/1/20001.

Some branches which are no longer listed here are detailed in Rev. Jameson's 1901 book, THE JAMESONS IN AMERICA. I have gone over this book of his and made corrections where discovered and added

people and branches to that which he has already written. Because of the length of these genealogies, they have not been inputted into my computer, though they have been supplemented via the folders I hold for the above noted items. The new information is now being placed under a new database entitled
